

The BEST in Driver Cooling Systems

We are the innovators - using temperature-controlled cool water, **COOL SHIRT™** Systems provide unsurpassed cooling in a compact, leak-proof cooling unit .

SPLIT-SECOND DECISIONS require clear thinking. All of your car's safety equipment is there to help you if you crash, **COOL SHIRT™** can help you PREVENT a crash.

ENERGY FOR THE FINAL LAPS While other drivers are fading, **COOL SHIRT™** keeps you energized & mentally alert, giving you the competitive edge for those final laps.

SAFETY

With 20 years experience in the medical field, we designed **COOL SHIRT™** for racers with one thing in mind: personal safety. Keeping your body cool in a hot racecar improves your performance and helps you win.

COOL SHIRT™

Personal Cooling Systems

TESTING PROVES **COOL SHIRT™** WORKS

Racers **ARE** athletes and racing **IS** vigorous exercise. Independent testing has proven that wearing a temperature-controlled **COOL SHIRT™** during exercise **reduces** heat stress, weight loss, dehydration and helps maintain a safe body temperature.

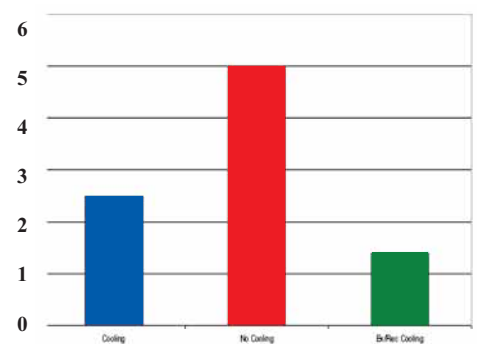

No **COOL SHIRT™** worn during or after exercise. Temp continued to rise.

COOL SHIRT™ worn only after exercise during rest. Temperature quickly leveled off.

COOL SHIRT™ worn during exercise and while resting. Temperature dropped below original level.

Weight Loss in Each Trial (in pounds)

Heat exhaustion occurs when you lose **2% or more** of your total body weight due to fluid loss.

Independent testing results of three separate trials involving rigorous exercise.

COOL SHIRT™ Personal Cooling Systems

Heat Relief in Your Racecar

Pro Air & Water System *PSAWC-12/24*

- Temperature-controlled cool water to the shirt and cooled air to the helmet
- Complete with **COOL SHIRT™** with quick disconnects, *leak-proof cooler* with internal pump, mounting tray, dual temp control switch, 135cfm blower, 10 HEPA-4 Micron Air Filters, block ice containers, all hoses and helmet adaptor
- Weight: 6 lbs, 12V system, cooler 2 Amp, blower 2.9Amps
- Cooling time: 24 Quart: 6+ hours, 12 Quart: 3+ hours
- Two sizes: 24 Quart 15 ½" L - 10 ½" W - 13" H 12 Quart 14" L - 9 ½" W - 11" H

Club System *CSC-12/24*

- Leak-proof cooler with pump – 2 sizes
- **COOL SHIRT™**
- Insulated hose
- 12V, 2 Amps
- Weight: 3 lbs

Round System *RSC-10*

- Leak-proof cooler w/ pump
- **COOL SHIRT™**
- Insulated hose
- 12V, 2 Amps
- 10 quart 13"H x 8.5" diameter
- Weight: 2 lbs
- Cooling time: 2 hours

Pit Crew System *MPS-6-C*

- 15 gallon 6-person hook-up cooler with wheels, retractable handle and pump
- 6 **COOL SHIRTS™** with quick disconnects and 6 insulated temp control hoses
- Runs on 12V or 110 adaptor

Fresh-Air Blower System *ABS-C*

- 135CFM blower and helmet adaptor
- 3 feet of 3" intake hose
- 4 feet of 1.5" blower-to-helmet hose
- 10 HEPA-4 Micron Air Filters
- Weight: 1/2 lb, 2.9 Amps

Fresh Cool Air Systems *CAS-12/24-C*

- Cooler with 135/235 CFM Blower
- 8 feet of 1.5" + 3 feet of 3" air hose
- 10 HEPA-4 Micron Air Filters
- Fittings for helmet & blower
- Weight: 2 lbs, 2.9 Amps

Port-A-Cool System *PCSC*

- **COOL SHIRT™**
- Port-A-Cool Adaptor kit for shirt
- Can holder with belt loop
- 12 oz can of Port-A-Cool Freeze Spray
